The background is a light gray with a fine, repeating pattern of small hexagons. Overlaid on this are several larger, stylized hexagonal shapes. Some are solid black outlines, while others are white outlines with a slight drop shadow. A prominent feature is a thick, bright green line that zig-zags across the scene, starting from the left edge, moving down, then up and right, then down and right, and finally up and right towards the top right corner. Another similar green line is visible in the bottom right corner, also zig-zagging.
